News Briefs

The annual Tomkins Memorial Concert and Lecture will be held on October 14, 3 p.m. in Cole Hall. This year's lecturer is Max Delbruck, 1969 nobel laureate for his contributions to medicine and Albert Billings Ruddock Professor of Biology at the California Institute of Technology, Pasadena. His lecture is entitled, "Mind from Matter?" Pianist Jeff Kahane and violinist Dan Nobuhiko Smiley will perform selections by Stravinsky and Brahms. The lecture and concert are named for Gordon M. Tomkins, who was one of America's most distinguished biochemists and a pioneer researcher in the field of hormone activity. He was also an accomplished musician who played both classics and jazz, and was UCSF professor of Biochemistry and vice-chairman of the Department of Biochemistry and Biophysics before his death in 1975.

Steven A. Schroeder, associate professor of medicine and a member of the Health Policy Program has been awarded a three-year grant for $200,000 from the Henry J. Kaiser Family Foundation of Palo Alto to support a series of Studies that are designed to analyze health care policies and generate primary research data to learn what policies and practices affect rising medical costs.

Choh Hao Li, director of the Hormone Research Laboratory, Professor of Biochemistry and Professor of Experimental Endocrinology will be receiving an honorary doctorate degree on September 30 from the University of Uppsala, Sweden for his outstanding contributions to the chemistry and biology of anterior pituitary hormones. During its 500 year celebration, Uppsala will confer 50 degrees to scholars of various faculties from all over the world. Dr. Li is chosen for this honor from the faculty of chemistry.

Yes, I'd like to see theatre on campus, is the response you should give along with your campus or home address, if you would like to reactivate the Millberry Community Theatre. The Theatre has presented "Blythe Spirit", "Nightwatch", "The Tiger" and "The Typist" in the past. A meeting will be called at the end of this month by Christine Raher, board president who will notify all of those who have showed an interest. No previous theatrical or acting experience is necessary, only a desire to see theater on campus. Send your response to MCT Board of Directors, c/o Christine Raher, Langley Porter Institute. For further information call Ms. Raher at x7482.

A three-year grant for $165,310 from the American Cancer Society (ACS) has been received by Continuing Education in Nursing (CEN), the School of Nursing to develop cancer experts in clinical nursing service and education. Under the direction of Maura C. Carroll, coordinator of CEN, a state-wide certificate program will be developed for nurse clinicians, with special study programs to prepare nurses to become faculty in continuing education in cancer nursing programs. Tests and self-pace learning materials will be developed and disseminated through the California Division of the ACS and its local units.

The Pathology Department of the School of Medicine has also received a grant from the ACS for $28,310 to support a year's training in cytotechnology for the six students who are currently enrolled in the program. The cytotechnology training program is under the direction of Eileen B. King, associate clinical professor of Pathology, and associate pathology researcher with the Hooper Foundation.

Health professionals who want to learn how to help patients overcome stress will participate in a symposium, Saturday and Sunday, October 1 and 2, at the Sheraton-Palace Hotel, S.F. The first day's sessions will focus on teaching stress reduction techniques such as biofeedback, relaxation training, and behavior modification. Sunday, a wide range of authorities on stress will speak, including Nobel Laureate Hans Selye, director of the International Institute of Stress in Montreal. The symposium, entitled "Stress Management — Concepts of Stress," is sponsored by UCSF schools of medicine, nursing, pharmacy, and dentistry; The Institute for the Study of Human Knowledge in Los Altos; and the International Institute of Stress. The conference is open to the lay public. For more information contact Continuing Education in Health Sciences Program, 1308 Third Ave., extension 2894.

The Native Sons of the Golden West have presented the School of Dentistry's Center for Craniofacial Anomalies with gift support totalling $40,000 this year. For over 25 years, the Native Sons have provided outstanding support for the UCSF program, collecting funds statewide and greatly extending the Center's ability to treat children born with cleft lip, palate, or other malformations of the face and jaws. To date the Native Sons have contributed over $300,000 in support.

An Area Health Education Center for the VA Hospital in Fresno, to be used jointly by the VA and the new UC Medical School in Fresno, has been approved by the Veterans Administration announced Congressman B.F. Sisk recently. The new medical education building will be a three-story structure adjacent and connected to the east wing of the main hospital. It will include space for a medical library, computer center, audio-visual communications and distribution area, medical illustration and CCVT facilities, offices for the University dean and departmental faculty and staff, clinical teaching and investigation areas, an auditorium, offices for VA medical and health trainees and instructors, and classrooms.

Hibbard E. Williams, Professor and Vice Chairman, Department of Medicine, and Chief of the Medical Service at SFGH will be on a six month sabbatical Oct. 1, 1977 to March 31, 1978. He will be at the Medical Genetics Laboratory on the UCSF campus conducting research on the biochemistry of purines. From Oct. 1 to Jan 31, Julius R. Krevans, Dean UCSF School of Medicine and Professor of Medicine, will spend part of his current sabbatical serving as Acting Chief of Medicine at SFGH.
